MUFFLE AND LIGHT CAR, COUNCIL SAYS

INSTRUCTS POLICE TO ARREST TRAFFIC ORDINANCE VIOLATORS.

KEEP TREES IN YARD TOO, ALDERMEN ORDER

Planting on Street Parkings Tabooed —To Enforce Law—Athertons Oppose Wabash Move at Trestle.

That "pop, pop" sound resembling somewhat the sham battle now being played by the European countries, which issues from many automobiles of Maryville must bid good-bye, if the order of the city council last night to Chief of Police E. C. Moberly is adhered to. The tail light in the rear, and the head lights in front likewise are to blaze forth in all their glory and prominence from after sundown to sunup, if the council's order is obeyed.

Too many violations of the city ordinances relative to the operation of automobiles within the city limits of Maryville are being made, the councilmen say, which necessitates that a stricter curb be placed at once.

The planting of trees or shrubbery in street parkings any place in the city also is tabooed by the city ordinances, which the council proposed last night to enforce more stringently.

Must Keep Trees Off Parkings.

There have been several violations of this ordinance recently, probably from ignorance of the law. While there are some who favor the planting of trees along the parkings, there are those who claim it darkens the streets, keeps the sidewalks damp and slippery after rains or snows and makes better hiding places for "spooks" and holdup men.

A remonstrance to the proposed closing of the public road beneath the Wabash trestle, in the northeast part of the city, in order to permit the trestle to be supplanted by a fill was made before the council last night by Lee Atherton for his mother, Mrs. Kittie Atherton. She lives on the north side of the right of way.

Opposes Complete Wabash Fill.

Mr. Atherton said the closing of the road would work a hardship on them and also many others who use that highway as a "short cut" to and from northeast of Maryville.

Mr. Atherton proposed that the Wabash be compelled to leave the road open either by not filling in all the trestle or by placing a culvert under that part. As Mrs. Atherton owns the strip of land north of the Wabash right of way, a part of which the railroad company must buy in order to make the fill, it is believed the railroad will have to grant the request.

Mrs. Atherton also says she may some day convert the land directly north of the railroad into a park, it is said, and that the road beneath the Wabash would furnish an easy access to the grounds. By closing the road the Atherton's could cultivate several acres now cut off by the road, but this they say is of less importance than to maintain the highway there.

No action has been taken by the council nor the railroad yet relative to closing the road or keeping it open. As the contract for the fill is to be made soon, however, it is expected that some step will be taken within a short time.

Improvement is Opposed.

The proposition to lay a sidewalk on Market street from Grant to Leiber street, in the south part of the city, was deferred by the council last night because of a remonstrance being filed against the improvement. The petition for the sidewalk contained twenty names, while the "kick" was signed by sixty-four.

Most of the remonstrators have no property interests there, however. The council is not compelled to abide by the remonstrance, as in paving, as the petition for the improvement contains more than the required ten names.

An ordinance to lay a sidewalk on the west side of Short street from First to Second street was passed last night, after a petition signed by thirteen was presented.

Adjournment was taken by the council until Monday night, May 31, when bids for paving on six streets of the city will be considered. No discussion relative to new paving propositions was held last night, it being decided to let the property owners do the agitating now.

STORM RAZES CRAIG BARN

Farmer's Possession Swept Away and Wife Dislocates Elbow in Excitement—Blows Down Tree.

The wind storm which swept across Nodaway county yesterday morning blew down the barn on the farm of Neal Craig, southwest of Maryville, and caused Mrs. Craig to dislocate the elbow of her right arm. Mrs. Craig was in the yard about daylight yesterday morning when the barn was razed.

She excitedly ran for the house, and in doing so fell over a fence near the house. The fall caused the injury. A large tree on the farm of John Evans, nearby, also was blown down, and many limbs of other trees broken.

The breaking of limbs on trees in various parts of the county are reported today.

HAS AN OXYOLINE MACHINE.

Dr. Wm. Wallis, Jr., Installs Apparatus for Manufacturing Oxygen.

Dr. William Wallis, Jr., has added to his office equipment a Neel-Armstrong oxyoline manufacturing machine, which was installed by D. E. Wassam, general agent of the company, from Akron, O.

Oxyoline contains a high percentage of nascent oxygen; hence it is highly unstable, being dissipated almost as soon as made. Its storage is an impossibility, and it must be used as generated. Consequently the physician, to avail himself of the many advantages which it offers, must equip his office with an apparatus for producing it. Oxyoline is not a mechanical treatment. The apparatus is not in itself for treatment; it represents merely the means to an end.

In a word, the physician equips himself for the manufacture of his own remedy, so to speak, though oxyline is in no sense a drug. It is of special value in microbic diseases, such as catarrh, influenza, whooping cough, bronchitis, hay fever and like affections.

Oxyoline as a germicide is capable of killing the hardiest of known bacteria, including bacillus anthracis, but is unique in this respect, in that it has no destructive influence upon body tissues.

The apparatus is highly recommended by leading physicians. It represents an expenditure of about $500, but Dr. Wallis is convinced that it has virtue and that nothing is too good for his clientele. There 118 of these machines in Missouri.

RAINS HURT HAY CROP.

Uncut Plant Harmed and Mowed Portion Rotting in Deluge, Farmers Report.

The hay crop of Nodaway county will be appreciably damaged by the heavy rains of the last few days, farmers in Maryville today report. The first crop is now just about ready to cut, especially the alfalfa. That already cut cannot be placed in the mow or stacked, and that not cut yet is being beaten down to the ground by the heavy rains and wind storms.

The rain, however, is said to be playing havoc with the chinch bug and placing a damper on the work of the Hessian fly, so that the farmers are looking forward to a real good wheat crop The corn crop is looking good, too, though strawberries are damaged considerable.

May Defer Track Meet.

The track meet for the rural school pupils of Nodaway township, planned to be held at Burlington Junction tomorrow afternoon, will probably be deferred, it is announced. A ball game between the pupils of the Burlington Junction and the Clearmont schools was also planned.

PLAN A FISH FRY

BAPTIST MEN TO FEAST AT ATHERTON'S JUNE 2.

WILL DISCUSS PAVING

After Outdoor Banquet, Brotherhood Will Take up Regular Work—Assure Piscatorial Catches.

Plans for a big fish fry and frolic, in connection with the regular monthly meeting of the Men's club of the First Baptist church are now being made by the executive committee of the club, Dr. Karl Malotte, president, announces. The fish fry will be held next Thursday night, June 3, probably in the grove on the farm of Mrs. Kittie Atherton, directly northeast of Maryville.

The fish will be caught by a detail from the club that day, either in the 102 river or the Platte river, or both, it is announced. If enough of the finny animals cannot be caught in that way a purchase will be made at local butcher shops or in St. Joseph, it is said. Anyway, the fish are assured.

But the meal will not consist entirely of fish, for there will be the old-fashioned favorite, corn bread, and lots more, too, Dr. Malotte says.

Want Street Paving.

After the feast, to which all members of the club are invited, a business session, as usual, will be held to discuss various propositions.

One discussion will relate to paving on Jenkins street, along the Baptist church, and also on Market street, along the east side of the church building. The Baptists strongly favored a recent petition to pave on those two streets, which lost. A new move to get the street improvements will be discussed at the outdoor meeting next week, it is said.

The leaders of the various gospel teams, selected to spread the gospel over this and adjoining counties this summer, also will be asked to speak and to give a report of what has already been done in that line.

A discussion of the various church improvements likewise is scheduled for the meeting next week. The church is being improved by the repair of the roof, now finished, and by installing a balcony in the church and redecorating. Work on the balcony was begun this week by Borrusch & Bolin.

To Strengthen Basement Pillars.

The girders to support the balcony are now being placed preparatory to flooring the upper part. Temporary pillars also have been placed. It has been decided, however, that new and stronger pillars will have to be placed in the basement to support the increased weight, it is said. This will necessitate added expense. The balcony will seat about 200. The auditorium has a seating capacity of 670.

The Baptists plan to hold a second fish fry later in the season, when members of the Patee Park Baptist church of St. Joseph will be invited to take part.

TWO-CENT LETTER RATE.

Applies to Many Countries—Rural Patrons Have C. O. D. and Insured Service Now.

Short-paid letters for foreign countries are subject to double the amount of the deficient postage. The only countries to which the two-cent letter rate applies are Canada, Cuba, Mexico, Republic of Panama, the Canal Zone, Bahamas, Barbados, British Honduras, Leeward Islands, Newfoundland, Germany (by direct steamers only), England, Scotland, Wales, Ireland and the city of Shanghai, China. To all other places the rate is five cents for the first ounce and three cents for each additional ounce.

The insurance and C. O. D. service has been extended to patrons of the rural routes. The patrons can now send an insured or C. O. D. package without coming to the postoffice.

DEFER SHAM BATTLE A WEEK.

Company F Will Practice Warfare June 3—Urge Public to Witness Slaughter.

The sham battle planned between two divisions of Company F, Fourth regiment, National Guards, at Normal park, tonight, has been postponed on account of rain until Thursday night, June 3, according to Captain John K. Ross The public is urged to attend the militia feature.

Bedford Visitors Here.

Mr. and Mrs. Guy Blair and Mrs. Blair's mother and sister, Mrs. Davis and Mrs. Frank Blair, all of Bedford, Ia., arrived in Maryville today to spend a few days on business.

DREDGE TIED UP; NO ACTION

Sale of 102 River Shovel, Planned for Tomorrow, Called Off, Belief—Work Held Up.

With both sides sitting tight, workmen anxious and the dredging of the 102 river progressing none, some move relative to the litigation over the dredge boat seems imminent soon. The sale of the dredge boat was ordered for tomorrow by an eastern concern which holds a $11,400 mortgage on it, but this is believed to have been called off, as no further notice of it has been proclaimed.

Fred P. Robinson, administrator for the estate of D. C. Stevens, the contractor, who died at Buffalo, April 21, said this morning, the next move was up to the mortgagees. What that would be, he said, he did not know. Mr. Robinson said, however, he believed it would be either to compromise the matter or trying to seize the boat.

No work has been done with the dredge boat for about two weeks on this account, and probably will not be until some further action is taken by the mortgagees.

HOPKINS TO OBSERVE DAY.

Supt. J. L. Nierman Will Give Memorial Address There Monday.

Decoration day will be observed at Hopkins next Monday and the graves of soldiers in the Hopkins cemetery will be decorated with the usual G. A. R. ceremonies. The program for the day is:

Music by the Hopkins band and gathering of old soldiers and citizens at the old G. A. R. corner, now the Park garage, at 9:30 o'clock. Procession will form and march to the cemetery.

In the afternoon the Hopkins band will furnish music, and headed by the band, soldiers and citizens will march to the M. E. church, where the exercises will take place. Prayer will be given by Rev. H. McNamee; music by the Hopkins orchestra; Lincoln's Gettysburg speech and Logan's orders by John B. Thompson; recitation by Miss Bertha Cross; address by Supt. J. L. Nierman; short addresses by Harmon Lowry and others; benediction by Rev. J. H. Weaver.

S. A. Fleming will act as chairman of the day and J. D. F. Robb as marshal.

PLAN HOME TALENT PLAY.

Women of Christian Church to Give Entertainment at Hopkins Saturday Night.

The Ladies' Aid society of the Christian church at Hopkins will give a home talent play in the opera house there next Saturday night. The title of the play is "Little Buckshot." Parts will be taken by Earl Miller, Harry Thomas, Ed Owens, Ernest West, Ed Kysar, Lawrence Miller, Loy Blanchard, Bertha Cross, Bernice Robbins, Mrs. Luke Brown and Mrs. John Schley.

IT RAINED 2.40 INCHES.

Fall of 1.18 Inches Recorded Since Early Yesterday Morning.

A total rainfall of 2.40 inches was recorded by J. R. Brink, from the time the storm began early yesterday morning to 7 o'clock this morning. Little rain has fallen since then, today.

This is the record rain of the month and brings the total for May now up to about seven inches.

Burlington Has Big Profit.

That the Chicago, Burlington & Quincy railroad made a profit of 6 per cent on a valuation of $50,000 a mile was stated before the state equalization board at Jefferson City yesterday by O. M. Spencer, general solicitor of the Burlington.

The Burlington was assessed last year at $18,000 a mile. Spencer said the Burlington was not asking for a reduction in its assessment but that it be assessed on the same basis as other property in the state.

Return to Tarkio.

Iowa Guest Here.

Mrs. C. W. Wigginton of Macedonia, Ia., arrived in Maryville Tuesday night to visit her daughters, Mrs. H. J. Becker and Mrs. Lou Denny.

LATINS PRESS ON

ITALIAN ARMY NOW COMMANDED BY KING EMMANUEL.

AUSTRIA ADMITS LOSS

Vienna War Office Says Enemy Has Entered Condino in Tyrol—Germans Roll Russians Back.

WAR SUMMARY

The Italians, who have crossed the Austrian frontier toward the Isonzo river, have not yet met with any serious opposition. In fact, no important battle is expected until the invaders reach the river, as it is here the Austrians are established.

Successful progress still continues in the Galician district near Przemysl, according to Vienna, with the capture of additional men, guns and war material.

An engagement of extreme violence is in progress north of Arras, where the Germans are trying to retake captured positions, and a similar condition prevails at the northern outskirts of the wood north of the road from Aix-Noulette to Souchez, where the French report a slight advance.

The British are reported by Paris to have made a fresh advance near La Bassee.

The alleged torpedoing of the American steamship Nebraskan is featured by all the London papers, which described the incident as "another challenge to America."

London, May 27.—The king of Italy has taken supreme command of the army and navy and is now with his troops at the front. On the Austro Italian frontier, and for a few miles in Austrian territory the Italian lines stretch for a distance of fifty miles or more.

The Austrian war office admits that Italian troops have entered Condino, in the Tyrol about forty miles east of Roveredo, where, prior to the declaration of war, an Austrian barracks was blown up and many Italians were arrested.

At the same time Vienna claims that the Italian attacks on the Corinthian frontier were repulsed with considerable losses to the invaders, and that in an engagement across the border north of Udine the Italians fled, leaving their arms behind.

Teutons Continue to Roll Russ Back.

Although called upon to face another enemy in Italy, whose troops have crossed the eastern border, the Austrians and Germans have not relaxed their efforts on the other fronts.

In middle Galicia they have assumed the offensive against the Russians along the San river, and claim to have met with further success.

In Flanders and Artois the Germans continue, according to the French report, to make furious attacks in an effort to regain the ground taken from them in recent weeks, and to hold that which they took from the British in the region of Ypres.

T. M. ALLBRIGHT DEAD.

Former Resident of Nodaway County Dies at Hastings, Neb.

Mrs. Q. A. Gilmore has received word of the death of her brother, T. M. Allbright, of Spring Ranch, Neb., who died Tuesday morning at Hastings, Neb. Mr. Allbright formerly lived near Skidmore and is well known throughout all that section of the county. While his health had not been good for several months, his death was very unexpected. No particulars of the death or funeral arrangements have been learned by the Maryville relatives.

Mr. Allbright is survived by a wife, three daughters and one son.

Trustee Sells Hopkins Store.

James C. Pistole, trustee of the Fishman store, sold the stock and $700 in accounts at public auction yesterday to Fred B. Sheley for $1,375. The stock of goods invoiced about $2,500. Fishman had liabilities of approximately $4,700. It is believed creditors will realize about 25 cents on the dollar

Purchases New Automobile.

James B. Robinson has purchased a "30" Stultz car.

Damaged the Corn.

J. M. Ephland, from north of town, says the heavy rains early Wednesday washed out and covered up lots of corn in his neighborhood, the listed corn suffering most.—Hopkins Journal.

COUNTY RIVERS BANK FULL

Nodaway and Platte in Bounds But Rising Slowly—Low places Covered by 102 Here.

The 102 river, east of Maryville, was bank full and still rising slowly at noon today. The flood water is running over some of the low lands on the Ditto farm, between the house and the river, and some drift is still coming down stream. Bert Hilsabeck, engineer at the municipal water plant, said the river had risen but a few inches since 5 o'clock this morning.

Little further rise is expected. The river was not quite bank full at Hopkins at 2:30 o'clock this afternoon and was at a standstill. At Creston this afternoon it is said the river was falling.

A report from Lenox, Ia., says forty head of steers were drowned in the Platte river. A report from Corning said the Nodoway river was out of its banks and rising.

The Platte river is also bank full, but at near the crest through Nodaway county. Reports at noon today from Conception and Ravenwood are that the river is bank full and rising slowly. At Parnell it is said the river is rising slowly, but little danger is expected unless further rains fall.

At Quitman reports at noon stated the Nodaway river was bank full and rising slowly, but no danger had been done.

TO HOLD FIRST SERVICE

Baptist Men's Club Gospel Team to Conduct Meeting at New Hope Church Sunday.

The first service to be held by the gospel team of the Men's club of the First Baptist church will be held Sunday at the New Hope church, east of Hopkins. At the morning service at 11 o'clock a memorial sermon will be given by the Rev. Mr. Watts of Clearmont. A basket dinner will be served at noon and at 2:30 o'clock the program will be in charge of the gospel team. The Ray Davis team is the one selected to take charge of the service, and this team is composed of Ray Davis, captain; Clyde Avitt, James Markwell, G. B. Holmes, Sr., and William Everhart. Several singers of the church will accompany the workers, and also there will be several auto loads of persons from the Maryville church attending.

300 ENROLLED AT NORMAL.

Summer Quarter Will Be Well Attended, Indicated—Are Finding Homes.

The enrollment of young men and women from northwest Missouri for the summer quarter at the Normal, which began this morning, is continually increasing. The total number that had paid dues to Treasurer George Kemp at 2 o'clock this afternoon was 301, while about 200 had received their class admittance cards at the Normal at 10 o'clock this morning.

The rainy weather is perhaps keeping some students back, but most of those already here are finding temporary homes during the quarter and boarding and lodging houses are rapidly filling up. Trains today are still bringing in many students.

LOST FISHER RETURNS.

"Trump" Palmer, Negro, Went Fishing Yesterday, Stayed Out All Night.

"Trump" Palmer, a negro, went fishing in the 102 river yesterday, remained all night and was found returning home this morning, sopping wet, by a searching party sent from town to hunt for him. When asked where he had been, he merely answered "fishin'," and let it go at that. It is said he stayed on the banks of the stream all night.

HOLD GUINEA DAY JUNE 16, DECIDED

MERCHANTS TO OFFER SPECIAL SALES THAT DAY, TOO.

CIVIC CLUB ARRANGES A NOVEL TREAT THEN

Commercial Organization Backs Move for Extra Inducements to Patrons of Maryville Business Houses.

Guineas galore will be seen on the streets of Maryville Wednesday, June 16, in connection with the special merchandise sale of Maryville business houses, if plans made this week at a meeting of the commercial interest committee and the entertainment committee of the Commercial club "pan out." There will be live ones, small ones, short ones and tall ones, so sayeth the committeemen. The inducements for every farmer and farmer's wife and son and daughter to come to town that day will be strong and many.

The two club committees are now busily engaged in mapping out the details of the event. It is expected that the first annual "Guinea day" will be one well worth repeating yearly. Assurance of the presence of a large number of guineas, both pretty and ugly ones, is given.

What Kind of Guineas?

While the show of guineas will no doubt be worth coming miles to see, the special sale of the merchants is just as strong or a stronger inducement. All lines of goods will be marked down to rock bottom prices and modern, up-to-the-minute wares will be placed on the bargain counters everywhere, according to present plans.

Naturally the question suggests itself, what kind of guineas does this have reference to? There is the secret. That is what we all are guessing at. Webster's dictionary gives several meanings to the word, among them being the statement that it is a form of fowl, another that it is an old English coin worth about $5. Again, young beautiful damsels often are spoken of as "guineas." Now, which does the club have reference to? Search us.

REFUSE LINEBAUGH NEW TRIAL.

Rehearing in Damage Suit by Charles Abbott Denied—Appeal is planned.

The motion for a new trial by William W. Linebaugh, defendant in a $20,000 damage suit by Charles Abbott of Elmo, who got a $4,000 verdict by a jury in circuit court recently at Gallatin, was denied yesterday by Judge Davis at Gallatin. A motion in arrest of judgment also was overruled.

After losing the two motions counsel for the defendant announced that an appeal to the Kansas City court of appeals would be taken. George Robb Ellison represented the defendant and M. E. Ford the plaintiff. Linebaugh was charged with having seduced a daughter of Mr. Abbott.

The savage thoroughness with which the Prussians are making war is well illustrated in the incident of the Saxon battalion which attempted to surrender in a body a few days ago. When their intentions were discovered the artillery of the Prussian army was immediately turned on them and they were mowed down by their own fellows by the hundreds. This is a revival of the discipline of the ancients and was intended to show that they had no use for men who were willing to be taken alive.

May 30 comes on Sunday this year, but it won't hurt to get out your flags on Saturday and keep them out a few days. In times like these it is good to look at the national colors occasionally. It is well to remind ourselves and the world that this country gave a half million men that "the government of the people, for the people and by the people should not perish from the earth." Americans have and can fight for a principle as readily and bravely as any people on earth. Americans are not inured to war and do not fight either for entertainment or for the aggrandizement of any monarch or ruling clique, but for concentrated gallantry and persistent courage in the face of disaster there were battles in the civil war that have never been surpassed.

Billy Sunday has closed his campaign at Patterson, N. J., and announces that he will now take a summer vacation. On the basis of big figures he has certainly earned a rest. His last three campaigns have been at Pittsburgh, Philadelphia and Patterson. During his seven weeks at Patterson, the smallest of the three cities, the total attendance was more than 750,000 and the number of those "hitting the trail" was 17,000. His meetings have been exceedingly profitable for him, but ministers say that the general good he has accomplished for the three cities could not be measured in millions. His personal income is perhaps larger than any preacher the country has known. His meetings in Pittsburgh netted him $40,000, in Philadelphia he was given $32,000, and in Patterson $26,000, making a total of $119,000 for his last six or eight months work. It is estimated that his campaigns have altogether brought him $615,000.

When Maryville Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Maryville citizen says.

J. A. Murphy, 805 East Fourth street, Maryville, says: "I suffered considerably from bladder trouble and lumbago. I got up in the morning feeling so stiff and lame and with such a dull ache across my loins that I could hardly work. Whenever I caught cold my kidneys troubled me. The kidney secretions were dark and filled with sediment. Finally I used Doan's Kidney Pills and am now free from the trouble. I recommend Doan's Kidney Pills just as highly today as I did when I was cured. Occasionally I take Doan's Kidney Pills and they quickly relieve me."

New York City's board of education has set aside May 28 as "tooth brush day." There are between 600,000 and 700,000 children in New York's public schools. If the spirit and letter of the board's orders are observed on the day specified, this fine army of young Americans will, after enjoying the usual instruction in incipient eugenics, personal hygiene and anti-hyphenated patriotism, have the privilege of undergoing a tooth brush drill. It will be an inspiring spectacle.

DIPLOMATS EXCHANGE TRAINS AT ZURICH

Von Buelow Thanks Swiss Commander For Military Protection.

Zurich, May 27.—The Duke of Avarna, Italian ambassador at Vienna; Baron von Macchio and Prince von Buelow, Austrian and German ambassadors to Italy, together with the staff of the Bavarian legation at Rome, all arrived here. The Italian diplomat and his suite boarded the train which brought Baron von Macchio from Rome, and continued his journey, while Baron von Macchio went on to Vienna in the special which brought the Duke of Avarna to this city.

The railroad station was guarded by troops from the Zurich garrison. Prince von Buelow was greeted by the German minister at Berne and the consul in this city. Before leaving he sent a telegram to General Wille, commander of the Swiss army, thanking him for the arrangements made by the military authorities for his protection on the journey through Switzerland. A similar telegram was sent to President Motta by Baron von Macchio.

Burke's Profits on Sale of Tobacco In Canal Zone $20.000.

New York, May 27.—John Burke, former manager of the Panama railroad, who is under indictment, charged with conspiracy to defraud the government in connection with tobacco contracts for the canal zone, testified that the tobacco in question was paid for out of the treasury of the railroad and that he did not believe he was defrauding the railroad "so long as the price was right."

Burke gave this testimony on cross-examination at the trial of Jacob Salas, a tobacco merchant, indicted on a similar charge.

Burke testified that he had entered into an agreement with Salas and Ricardo Bermudez, former governor of Colon, who is also under indictment, by which he was to purchase tobacco from them, and he identified eleven drafts calling for more than $20,000, which, he said, he received on account of his interests in the tobacco sales.

Fashionable clubs and social and fraternal orders in Tennessee must tear out their bars and "sideboards" and hereafter sell nothing stronger than grape juice highballs. The legislature, after a bitter fight, passed the "locker" bill prohibiting an organization from keeping liquor for its members, even though they buy it and only "store" it in the clubs.

There is joy in the treasury department. Preliminary estimates from all internal revenue collection districts indicate that the individual and corporation income tax this year not only will come up to the original estimates of $80,000,000, but probably will exceed that sum.

Census figures show that debt and taxation in Kansas are still increasing. The net debt on March 1, 1913, represents an increase of $17,482,227, or 19.7 per cent over the amount reported in 1902. The per capita debt of the Sunflower state in 1913 was $31.22, an increase of $7.23 over that of 1902.

RAISULI STARTS REVOLT

Moorish Brigand Causing Trouble For French in Morocco.

Paris, May 28.—Official information from Morocco indicates that Raisuli, the Moorish brigand and pretender to Morocco's throne, is conducting an agitation among the natives in the district of Charb, in the northern part of the country. It is stated that Raisuli's actions have been inspired by German agents.

General Lyautey, resident French governor of Morocco, dispatched a detachment of troops against the malcontents. The troops were attacked near Boudouma, eight miles south of Quezzan, by a strong force of mountaineers, coming from the Spanish zone. The mountaineers were defeated with heavy losses.

Meat Cargo Prize Case Up June 7.

Washington, May 27.—Ambassador Page cabled Secretary Bryan that Sir Edward Grey had given assurances that prize court proceedings in four of the American meat cargoes destined to European neutrals, but held in British ports, would proceed without delay on June 7. Sir Edward requested that counsel for the packers be present. Alfred Urion, their general counsel, is preparing to sail Saturday.

Nebraskan Passes Queenstown.

London, May 27.—The American steamer Nebraskan, which was torpedoed by a submarine off Fastnet, but not seriously damaged, passed Queenstown on her way back to Liverpool. She was proceeding under her own steam.

A message from Liverpool says that the name and nationality of the Nebraskan were painted in large letters on its sides. It was in water ballast.

IS MENACE TO ALFALFA.

Clover-Root Pest or Curculio Grub A Dangerous Insect—Harrowing Helps.

The clover-root curculio in its most dangerous form is a tiny grub which seriously injures the roots both of clover and alfalfa, sometimes working upward into the stem says government experts. Only a short time ago it was considered of little economic importance, but it has now been definitely established that serious injuries formerly credited to other pests or the cause remained unknown are due to this tiny white grub. The insect seems to be continually increasing along roadsides and in clover fields.

There is only one practical suggestion that at present can be made for limiting the devastations of this pest. That is by disking or harrowing the fields as soon as the first hay crop is removed. The process, it would seem, will destroy vast numbers of the pupae of this insect, which do not descend much more than an inch below the surface.

The disking and harrowing should be done immediately after removing the first hay crop, and prompt action even at this time will not prevent injury to that season's crop but should considerably reduce the pest the following year.

The depredations of the grubs are confined particularly to the roots of clover and alfalfa. Their work is, therefore, not evident to the casual observe, and the little white insects themselves can hardly be noticed.

The adult insect, also, which is a tiny beetle, injures both clover and alfalfa, but these injuries are less serious, although more noticeable. They may be particularly noticed in September and October, when mutilated clover leaves along any roadside will testify to their abundance.

It was only in May, 1914, that the first absolute proof was secured of the insect's serious devastations in alfalfa fields, and the department is still looking for the most practicable methods to prevent further losses. It seems that a short rotation of the alfalfa crop might have a tendency to limit the abundance of the insect in the fields, but this would not effect the continuous breeding of the pest in waste lands or where clover or alfalfa occur uninterruptedly.

The limited amount of food consumed by the adults would place the application of poisons out of practical consideration, and the burning over of fields in winter would hardly destroy enough of the hibernating adults to limit their devastations the following season.

How Gold Dust actually *works* for you

The active principle of Gold Dust is a valuable antiseptic cleansing agent.

It actually *works*. It gets into the corners and crevices where fingers and washcloths can't reach. It permeates and dissolves dirt, grease and grime *everywhere* and it cleans and brightens *everything*.

Gold Dust does all this—does this actual *work*—because it is made for that purpose.

Millions of women all over the country use Gold Dust three times a day in washing dishes. They use it also for scrubbing floors, washing windows, etc.

But they do not realize all the uses of Gold Dust. Gold Dust is the only washing and cleaning powder needed in any home.

❖ ❖ ❖ ❖

Gold Dust cleans metal work, nickel, enameled ware, etc., without scratching or marring the surface—leaving it sanitarily clean, bright and new-looking.

The use of Gold Dust is an economy. There can be no waste when you use the exact small quantity required for each specific purpose. It is at once taken up by hot or cold water, forming the perfect cleansing solution.

No soap or other cleansing help is needed. Gold Dust does it all, and Gold Dust does its work far better than anything else can.

Use Gold Dust not only for washing dishes, but for washing bathtubs and bathroom fixtures, cleaning oil mops, cleaning and freshening linoleum and oilcloth, cleaning and brightening pots, pans and cooking utensils, giving luster to glassware—for every cleaning and brightening purpose.

Gold Dust is as inexpensive as it is indispensable.

A 12-CYLINDER CAR.

Packard to Have a "Twin Six"—Is Newest Innovation in Motor Construction.

Motor engineers said last February at the Kansas City Motor show that the 12-cylinder car, when it appeared on the market, would be the height of motor efficiency. The "eight" had just made its appearance out of the factory of a reliable motor manufacturer.

"We'll have a 'twelve' next, and when we do——"

If there is anyone who can keep a secret it's a motor manufacturer. He can shut up his factory, station guards all around the outside and work so systematically on a new creation that the announcement of an innovation sometimes comes as a shock. Some of them even station motor camps down on the deserts of Arizona, where some wonderful things are tried out. There are now at least a dozen manufacturers tinkering with new engines down in Arizona with which they expect to surprise the motor industry. The Packard Motor company tried out a 12-cylinder car down there and no one knew about it until the advertising announcement was made this week.

The first "twelve" probably will be in Kansas City by June 15. The Kansas City representative of the Packard company doesn't know whether the factory intends to continue the manufacture of the "six," or whether the output will be limited to 12-cylinder cars. Neither is it known what the production will be, but it is said the output will be limited.

Nothing much is known as to what the new model will look like. Of course a "twin six" will have a remarkable range of ability combined with almost complete absence of vibration at all speeds. This result is due not only to the continuous smooth application of power from the twelve cylinders, but also to the fact that the small bore of the cylinders and the use of aluminum alloy in making the pistons will reduce the weight of the twelve pistons to half the weight of the present Packard model.

In external appearance the new Packard will be much the same, except that the hood will be shorter, and the radiator tapered to conform with it. The reduced length of hood permits a shorter wheel base.

The "twin six" is exactly what the name implies, two 6-cylinder blocks arranged in a V form with an angle of 60 degrees between them. This small angle allows such accessories as starting motor, generator and water pump to be placed inside of the frame so that the space between the cylinders is left clear and the valves are conveniently accessible without the removal of a single accessory.

The motor will be of clean cut design with nickeled trimmings and enameled cylinders. The bore is three inches and the stroke five inches.

One of the new models will first be shown at the Indianapolis races next Saturday. It is not known what the price of the car will be. The Kansas City Packard company, according to the manager, has sold seventeen "twelves" since the announcement was made.—Kansas City Star.

The Co-operative Tire

Goodyear has always built co-operative tires. Every saving has gone to the user. The more men bought the better we built them, and the lower we sold them.

That is why Goodyear has held top place, outselling any other tire.

3 Reductions

Note that in two years we made three big price reductions. The last—on February 1st—brought the total to 45 per cent.

Yet in costly ways these tires have been bettered. In not one iota were they ever skimped.

Our Fortified Tire is still "On-Air" cured to save blow-outs. Yet that one extra costs us $450,000 yearly.

It still has our No-Rim-Cut feature. It has in each base 126 braided piano wires to make the tire secure. It embodies hundreds of rubber rivets, formed to combat loose treads.

Our All-Weather tread is still double-thick. It still has the sharp, tough, resistless grips.

Those extras—all exclusive to Goodyear—are all retained, despite our price reductions. And we still spend $100,000 yearly to discover new ways to better them.

Your Ally

In all these ways, Goodyear is your ally. You do injustice to yourself when you fail to secure this advantage. Never in tire history was such value given as you get in Goodyear tires today.

No smaller makers can ever give so much.

Any dealer will supply you. [2327]

TO USE ORCHARD SPRAY.

Government Experts Advise Preparation of Lime—Sulphur Concentrate.

Investigations for the purpose of encouraging orchardists in the preparation of lime-sulphur concentrates for their own use or in the neighborhood have led to the wide use of this spray material, according to the department of agriculture. It is of relatively little importance except for economy in storage space how dense or heavy a concentrated solution is made because it can be readily diluted in conformity with the purpose for which it is to be used.

A good grade of fresh limestone, containing not less than 90 per cent calcium oxid, is necessary for the best results. Hydrated lime is sometimes used, but it is necessary to obtain a good grade and at least 20 per cent more of this form of lime, as it contains a high percentage of moisture.

A highly concentrated solution may be made by using the lime and sulphur at the ratio of 1 to 2, but with reduced quantities of water. The formula used in some of the commercial lime-sulphur manufacturing plants is 80 pounds of fresh stone lime, 160 pounds of commercial ground sulphur and water to make 50 gallons of the finished product.

Commercial ground sulphur may be purchased in car lots for about $1.50 per 100 pounds and lime at about 60 cents per barrel, making the cost of the highly concentrated solution, estimating labor and fuel at 70 cents, about $3.30 per barrel of 50 gallons. This does not include wear on outfit and cost of containers for storing.

TRIUMPH IS SUNK IN DARDANELLES

British Battleship Torpedoed by Submarine In Turkish Waters.

BUILT IN 1902 FOR CHILE.

As Flagship of the Asiatic Squadron It Took Part In the Bombardment of Tsingtau—Majority of Officers and Crew Are Saved.

London, May 27.—The British battleship Triumph was torpedoed by a submarine in the Dardanelles and sank shortly afterward.

The British admiralty reports that the majority of the officers and crew were saved.

The battleship Triumph was built at Barrow, in 1902, for the Chilean government, but was purchased by Great Britain in 1903.

Since the present war broke out the Triumph has been in operation in both far eastern and European waters. As flagship of the British Asiatic squadron, it participated in the bombardment of the German base at Tsingtau, China, last October, and was reported to have been damaged by the shell fire of the German forts. Lately it had been active in the bombardment of Turkish trenches on the Gallipoli peninsula.

The Triumph, which was commanded by Captain Maurice E. Fitzmaurice, was a vessel of 11,985 tons. Its crew of officers and men numbered about 700 men. The vessel carried four 10-inch, fourteen 7.5-inch guns and fourteen 14-pounders and four 6-pounders. The Triumph was 436 feet long and had a speed of about twenty knots.

HEAD OF ERIE LINES INDICTED

Underwood Charged With Violating Interstate Commerce Act.

Cleveland, May 27.—Frederick D. Underwood, president of the Erie Railway, the Erie railroad and the Delaware and Hudson railroads, was indicted by a special federal grand jury. Violation of the interstate commerce laws is charged.

The indictment charges that in July, 1912, W. B. Miller, former president of the Diamond Rubber company of Akron, and seven friends were allowed the use of a private car for a trip from Akron to Beverly, Mass., upon payment of eight fares. Under the interstate commerce law, a private car can be allotted only upon the payment of twenty-five full fares.

Lumber Rate Case Won by Sioux City.

Washington, May 27.—Sioux City won a victory before the interstate commerce commission when the proposed increased rates on yellow pine lumber from the southwest to Sioux City were found not justified. The carriers were called on to justify a proposed increase rate of 30 cents per 100 pounds to Sioux City, and they were unable to do it. The present rates is 28 cents.

Baptists Indorse Wilson's Stand.

Los Angeles, May 27.—The Northern Baptist convention in its closing session adopted resolutions indorsing the president's stand for neutral rights in the European war and urging national prohibition, the enactment of federal statutes to govern divorce and the strict enforcement of Sunday closing laws everywhere.

MARYVILLE PEOPLE PRAISE SIMPLE MIXTURE

Many in Maryville praise the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka. This remedy is the most thorough bowel cleanser ever sold, being even used successfully in appendicitis. One spoonful relieves almost any case of constipation, sour or gassy stomach. One minute after you take it the gasses rumble and pass out. Adler-i-ka cannot gripe and the instant action is surprising. The Koch Pharmacy.

AWAIT DETAILS OF ATTACK ON NEBRASKAN

Washington Officials Are Cautious About Discussing Matter.

Washington, May 27.—The course of the United States government in the case of the American steamer Nebraskan, damaged off the coast of Ireland, was undetermined because officials were without definite information whether the ship was torpedoed or struck by a mine.

Messages from Ambassador Page and Consul General Skinner at London transmitted the report of the British admiralty that the vessel had been torpedoed, but officials noted with much interest the captain's report to his owners, indicating a doubt whether the Nebraskan was hit by a torpedo or a mine.

President Wilson himself read all the dispatches. In view of the positive position which the United States has taken on the subject of submarine activity in the war zone and the delicacy of the situation with Germany arising out of the Lusitania disaster, the story of the Nebraskan's experience is awaited with unusual interest. Should it develop clearly that it was torpedoed without warning, an aggravating circumstances will have been added to an already tense situation, notwithstanding the fact that no lives were lost.

SAYS JEWS NOT STRANGLERS

San Diego Minister Writes Letter to Governor of Georgia.

San Diego, Cal., May 27.—"Neither man nor beast has ever been known to have been strangled by a Jew," says a letter written to the governor of Georgia by Rev. Alfred K. M. Lover, rector of St. James' Episcopal church here. The letter is intended to show that Leo M. Frank probably is innocent of the murder of Mary Phagan, a factory girl, for which he is under death sentence.

"The Jewish law and custom that compels under pain of sin the drawing of life blood of all animals to be slaughtered has also unconsciously applied from the time of Moses to the present to the criminal act of Jewish murderers as a kind of second nature," the letter asserts.

The writer is said to be a recognized authority on laws and customs of the Jews.

Father Kelley Is Dead.

St. Marys, Kan., May 27.—The Rev. Father John Kelley, treasurer of Creighton university, Omaha, who has been pastor of Catholic churches in Chicago, St. Louis, Baltimore and Kansas, died here. He was sixty-seven years old. Father Kelley was widely known in Jesuit circles of the country. He came to St. Mary's college here last month, suffering from a disease of the kidneys.

Attorney Koenigstein Indicted.

Madison, Neb., May 27.—The grand jury sitting here brought two indictments against Arthur J. Koenigstein, county attorney of Madison county for the term ending Jan. 1, 1915, and city attorney for Norfolk for the municipal year ending May, 1915. The indictments contain twenty-eight counts, charging him with taking bribes from keepers of resorts in Norfolk.

FIVE ARE DROWNED IN SPENCER FLOOD

Sioux City, Ia., May 27.—Joseph Provacek, his wife, two sons and daughter were drowned during the storm at their home, two miles south of Spencer, Neb., according to word which Mrs. E. G. Ludlow of Sioux City, a daughter of Mr. and Mrs. Provacek, received. The bodies have been found, the message stated.

MUFFLE AND LIGHT CAR, COUNCIL SAYS

INSTRUCTS POLICE TO ARREST TRAFFIC ORDINANCE VIOLATORS.

KEEP TREES IN YARD TOO, ALDERMEN ORDER

Planting on Street Parkings Tabooed —To Enforce Law—Athertons Oppose Wabash Move at Trestle.

That "pop, pop" sound resembling somewhat the sham battle now being played by the European countries, which issues from many automobiles of Maryville must bid good-bye, if the order of the city council last night to Chief of Police E. C. Moberly is adhered to. The tail light in the rear, and the head lights in front likewise are to blaze forth in all their glory and prominence from after sundown to sunup, if the council's order is obeyed.

Too many violations of the city ordinances relative to the operation of automobiles within the city limits of Maryville are being made, the councilmen say, which necessitates that a stricter curb be placed at once.

The planting of trees or shrubbery in street parkings any place in the city also is tabooed by the city ordinances, which the council proposed last night to enforce more stringently.

Must Keep Trees Off Parkings.

There have been several violations of this ordinance recently, probably from ignorance of the law. While there are some who favor the planting of trees along the parkings, there are those who claim it darkens the streets, keeps the sidewalks damp and slippery after rains or snows and makes better hiding places for "spooks" and holdup men.

A remonstrance to the proposed closing of the public road beneath the Wabash trestle, in the northeast part of the city, in order to permit the trestle to be supplanted by a fill was made before the council last night by Lee Atherton for his mother, Mrs. Kittie Atherton. She lives on the north side of the right of way.

Opposes Complete Wabash Fill.

Mr. Atherton said the closing of the road would work a hardship on them and also many others who use that highway as a "short cut" to and from northeast of Maryville.

Mr. Atherton proposed that the Wabash be compelled to leave the road open either by not filling in all the trestle or by placing a culvert under that part. As Mrs. Atherton owns the strip of land north of the Wabash right of way, a part of which the railroad company must buy in order to make the fill, it is believed the railroad will have to grant the request.

Mrs. Atherton also says she may some day convert the land directly north of the railroad into a park, it is said, and that the road beneath the Wabash would furnish an easy access to the grounds. By closing the road the Atherton's could cultivate several acres now cut off by the road, but this they say is of less importance than to maintain the highway there.

No action has been taken by the council nor the railroad yet relative to closing the road or keeping it open. As the contract for the fill is to be made soon, however, it is expected that some step will be taken within a short time.

Improvement is Opposed.

The proposition to lay a sidewalk on Market street from Grant to Leiber street, in the south part of the city, was deferred by the council last night because of a remonstrance being filed against the improvement. The petition for the sidewalk contained twenty names, while the "kick" was signed by sixty-four.

Most of the remonstrators have no property interests there, however. The council is not compelled to abide by the remonstrance, as in paving, as the petition for the improvement contains more than the required ten names.

An ordinance to lay a sidewalk on the west side of Short street from First to Second street was passed last night, after a petition signed by thirteen was presented.

Adjournment was taken by the council until Monday night, May 31, when bids for paving on six streets of the city will be considered. No discussion relative to new paving propositions was held last night, it being decided to let the property owners do the agitating now.

STORM RAZES CRAIG BARN

Farmer's Possession Swept Away and Wife Dislocates Elbow in Excitement—Blows Down Tree.

The wind storm which swept across Nodaway county yesterday morning blew down the barn on the farm of Neal Craig, southwest of Maryville, and caused Mrs. Craig to dislocate the elbow of her right arm. Mrs. Craig was in the yard about daylight yesterday morning when the barn was razed. She excitedly ran for the house, and in doing so fell over a fence near the house. The fall caused the injury. A large tree on the farm of John Evans, nearby, also was blown down, and many limbs of other trees broken.

The breaking of limbs on trees in various parts of the county are reported today.

HAS AN OXYOLINE MACHINE.

Dr. Wm. Wallis, Jr., Installs Apparatus for Manufacturing Oxygen.

Dr. William Wallis, Jr., has added to his office equipment a Neel-Armstrong oxyoline manufacturing machine, which was installed by D. E. Wassam, general agent of the company, from Akron, O.

Oxyoline contains a high percentage of nascent oxygen; hence it is highly unstable, being dissipated almost as soon as made. Its storage is an impossibility, and it must be used as generated. Consequently the physician, to avail himself of the many advantages which it offers, must equip his office with an apparatus for producing it. Oxyoline is not a mechanical treatment. The apparatus is not in itself for treatment; it represents merely the means to an end.

In a word, the physician equips himself for the manufacture of his own remedy, so to speak, though oxyline is in no sense a drug. It is of special value in microbic diseases, such as catarrh, influenza, whooping cough, bronchitis, hay fever and like affections.

Oxyoline as a germicide is capable of killing the hardiest of known bacteria, including bacillus anthracis, but is unique in this respect, in that it has no destructive influence upon body tissues.

The apparatus is highly recommended by leading physicians. It represents an expenditure of about $500, but Dr. Wallis is convinced that it has virtue and that nothing is too good for his clientele. There 118 of these machines in Missouri.

RAINS HURT HAY CROP.

Uncut Plant Harmed and Mowed Portion Rotting in Deluge, Farmers Report.

The hay crop of Nodaway county will be appreciably damaged by the heavy rains of the last few days, farmers in Maryville today report. The first crop is now just about ready to cut, especially the alfalfa. That already cut cannot be placed in the mow or stacked, and that not cut yet is being beaten down to the ground by the heavy rains and wind storms.

The rain, however, is said to be playing havoc with the chinch bug and placing a damper on the work of the Hessian fly, so that the farmers are looking forward to a real good wheat crop The corn crop is looking good, too, though strawberries are damaged considerable.

May Defer Track Meet.

The track meet for the rural school pupils of Nodaway township, planned to be held at Burlington Junction tomorrow afternoon, will probably be deferred, it is announced. A ball game between the pupils of the Burlington Junction and the Clearmont schools was also planned.

PLAN A FISH FRY

BAPTIST MEN TO FEAST AT ATHERTON'S JUNE 2.

WILL DISCUSS PAVING

After Outdoor Banquet, Brotherhood Will Take up Regular Work—Assure Piscatorial Catches.

Plans for a big fish fry and frolic, in connection with the regular monthly meeting of the Men's club of the First Baptist church are now being made by the executive committee of the club, Dr. Karl Malotte, president, announces. The fish fry will be held next Thursday night, June 3, probably in the grove on the farm of Mrs. Kittie Atherton, directly northeast of Maryville.

The fish will be caught by a detail from the club that day, either in the 102 river or the Platte river, or both, it is announced. If enough of the finny animals cannot be caught in that way a purchase will be made at local butcher shops or in St. Joseph, it is said. Anyway, the fish are assured.

But the meal will not consist entirely of fish, for there will be the old-fashioned favorite, corn bread, and lots more, too, Dr. Malotte says.

Want Street Paving.

After the feast, to which all members of the club are invited, a business session, as usual, will be held to discuss various propositions.

One discussion will relate to paving on Jenkins street, along the Baptist church, and also on Market street, along the east side of the church building. The Baptists strongly favored a recent petition to pave on those two streets, which lost. A new move to get the street improvements will be discussed at the outdoor meeting next week, it is said.

The leaders of the various gospel teams, selected to spread the gospel over this and adjoining counties this summer, also will be asked to speak and to give a report of what has already been done in that line.

A discussion of the various church improvements likewise is scheduled for the meeting next week. The church is being improved by the repair of the roof, now finished, and by installing a balcony in the church and redecorating. Work on the balcony was begun this week by Borrusch & Bolin.

To Strengthen Basement Pillars.

The girders to support the balcony are now being placed preparatory to flooring the upper part. Temporary pillars also have been placed. It has been decided, however, that new and stronger pillars will have to be placed in the basement to support the increased weight, it is said. This will necessitate added expense. The balcony will seat about 200. The auditorium has a seating capacity of 670.

The Baptists plan to hold a second fish fry later in the season, when members of the Patee Park Baptist church of St. Joseph will be invited to take part.

TWO-CENT LETTER RATE.

Applies to Many Countries—Rural Patrons Have C. O. D. and Insured Service Now.

Short-paid letters for foreign countries are subject to double the amount of the deficient postage. The only countries to which the two-cent letter rate applies are Canada, Cuba, Mexico, Republic of Panama, the Canal Zone, Bahamas, Barbados, British Honduras, Leeward Islands, Newfoundland, Germany (by direct steamers only), England, Scotland, Wales, Ireland and the city of Shanghai, China. To all other places the rate is five cents for the first ounce and three cents for each additional ounce.

The insurance and C. O. D. service has been extended to patrons of the rural routes. The patrons can now send an insured or C. O. D. package without coming to the postoffice.

DEFER SHAM BATTLE A WEEK.

Company F Will Practice Warfare June 3—Urge Public to Witness Slaughter.

The sham battle planned between two divisions of Company F, Fourth regiment, National Guards, at Normal park, tonight, has been postponed on account of rain until Thursday night, June 3, according to Captain John K. Ross The public is urged to attend the militia feature.

DREDGE TIED UP; NO ACTION

Sale of 102 River Shovel, Planned for Tomorrow, Called Off, Belief—Work Held Up.

With both sides sitting tight, workmen anxious and the dredging of the 102 river progressing none, some move relative to the litigation over the dredge boat seems imminent soon. The sale of the dredge boat was ordered for tomorrow by an eastern concern which holds a $11,400 mortgage on it, but this is believed to have been called off, as no further notice of it has been proclaimed.

Fred P. Robinson, administrator for the estate of D. C. Stevens, the contractor, who died at Buffalo, April 21, said this morning, the next move was up to the mortgagees. What that would be, he said, he did not know. Mr. Robinson said, however, he believed it would be either to compromise the matter or trying to seize the boat.

No work has been done with the dredge boat for about two weeks on this account, and probably will not be until some further action is taken by the mortgagees.

HOPKINS TO OBSERVE DAY.

Supt. J. L. Nierman Will Give Memorial Address There Monday.

Decoration day will be observed at Hopkins next Monday and the graves of soldiers in the Hopkins cemetery will be decorated with the usual G. A. R. ceremonies. The program for the day is:

Music by the Hopkins band and gathering of old soldiers and citizens at the old G. A. R. corner, now the Park garage, at 9:30 o'clock. Procession will form and march to the cemetery.

In the afternoon the Hopkins band will furnish music, and headed by the band, soldiers and citizens will march to the M. E. church, where the exercises will take place. Prayer will be given by Rev. H. McNamee; music by the Hopkins orchestra; Lincoln's Gettysburg speech and Logan's orders by John B. Thompson; recitation by Miss Bertha Cross; address by Supt. J. L. Nierman; short addresses by Harmon Lowry and others; benediction by Rev. J. H. Weaver.

S. A. Fleming will act as chairman of the day and J. D. F. Robb as marshal.

PLAN HOME TALENT PLAY.

Women of Christian Church to Give Entertainment at Hopkins Saturday Night.

The Ladies' Aid society of the Christian church at Hopkins will give a home talent play in the opera house there next Saturday night. The title of the play is "Little Buckshot." Parts will be taken by Earl Miller, Harry Thomas, Ed Owens, Ernest West, Ed Kysar, Lawrence Miller, Loy Blanchard, Bertha Cross, Bernice Robbins, Mrs. Luke Brown and Mrs. John Schley.

IT RAINED 2.40 INCHES.

Fall of 1.18 Inches Recorded Since Early Yesterday Morning.

A total rainfall of 2.40 inches was recorded by J. R. Brink, from the time the storm began early yesterday morning to 7 o'clock this morning. Little rain has fallen since then, today.

This is the record rain of the month and brings the total for May now up to about seven inches.

Burlington Has Big Profit.

That the Chicago, Burlington & Quincy railroad made a profit of 6 per cent on a valuation of $50,000 a mile was stated before the state equalization board at Jefferson City yesterday by O. M. Spencer, general solicitor of the Burlington.

The Burlington was assessed last year at $18,000 a mile. Spencer said the Burlington was not asking for a reduction in its assessment but that it be assessed on the same basis as other property in the state.

Return to Tarkio.

Mrs. Jennie Price and daughter, Jettie, and Mrs. John T. Williams, who have been spending a few days visiting at the home of Mr. and Mrs. J. B. Jones, returned to their home at Tarkio Wednesday.

Iowa Guest Here.

Mrs. C. W. Wigginton of Macedonia, Ia., arrived in Maryville Tuesday night to visit her daughters, Mrs. H. J. Becker and Mrs. Lou Denny.

LATINS PRESS ON

AUSTRIA ADMITS LOSS

Vienna War Office Says Enemy Has Entered Condino in Tyrol—Germans Roll Russians Back.

WAR SUMMARY

The Italians, who have crossed the Austrian frontier toward the Isonzo river, have not yet met with any serious opposition. In fact, no important battle is expected until the invaders reach the river, as it is here the Austrians are established.

Successful progress still continues in the Galician district near Przemysl, according to Vienna, with the capture of additional men, guns and war material.

An engagement of extreme violence is in progress north of Arras, where the Germans are trying to retake captured positions, and a similar condition prevails at the northern outskirts of the wood north of the road from Aix-Noulette to Souchez, where the French report a slight advance.

The British are supported by Paris to have made a fresh advance near La Bassee.

The alleged torpedoing of the American steamship Nebraskan is featured by all the London papers, which described the incident as "another challenge to America."

London May 27.—The king of Italy has taken supreme command of the army and navy and is now with his troops at the front. On the Austro-Italian frontier, and for a few miles in Austrian territory the Italian lines stretch for a distance of fifty miles or more.

The Austrian war office admits that Italian troops have entered Condino, in the Tyrol about forty miles east of Roveredo, where, prior to the declaration of war, an Austrian barracks was blown up and many Italians were arrested.

At the same time Vienna claims that the Italian attacks on the Corinthian frontier were repulsed with considerable losses to the invaders and that in an engagement across the border north of Udine the Italians fled, leaving their arms behind.

Teutons Continue to Roll Russ Back.

Although called upon to face another enemy in Italy, whose troops have crossed the eastern border, the Austrians and Germans have not relaxed their efforts on the other fronts.

In middle Galicia they have assumed the offensive against the Russians along the San river, and claim to have met with further success.

In Flanders and Artois the Germans continue, according to the French report, to make furious attacks in an effort to regain the ground taken from them in recent weeks, and to hold that which they took from the British in the region of Ypres.

T. M. ALLBRIGHT DEAD.

Former Resident of Nodaway County Dies at Hastings, Neb.

Mrs. Q. A. Gilmore has received word of the death of her brother, T. M. Allbright, of Spring Ranch, Neb., who died Tuesday morning at Hastings, Neb. Mr. Allbright formerly lived near Skidmore and is well known throughout all that section of the county. While his health had not been good for several months, his death was very unexpected. No particulars of the death or funeral arrangements have been learned by the Maryville relatives.

Mr. Allbright is survived by a wife, three daughters and one son.

Trustee Sells Hopkins Store.

James C. Pistole, trustee of the Fishman store, sold the stock and $700 in accounts at public auction yesterday to Fred B. Sheley for $1,375. The stock of goods invoiced about $2,500. Fishman had liabilities of approximately $4,700. It is believed creditors will realize about 25 cents on the dollar.

Purchases New Automobile.

James B. Robinson has purchased a "30" Stultz car.

Damaged the Corn.

J. M. Ephland, from north of town, says the heavy rains early Wednesday washed out and covered up lots of corn in his neighborhood, the listed corn suffering most.—Hopkins Journal.

COUNTY RIVERS BANK FULL

Nodaway and Platte in Bounds But Rising Slowly—Low places Covered by 102 Here.

The 102 river, east of Maryville, was bank full and still rising slowly at noon today. The flood water is running over some of the low lands on the Ditto farm, between the house and the river, and some drift is still coming down stream. Bert Hilsabeck, engineer at the municipal water plant, said the river had risen but a few inches since 5 o'clock this morning.

Little further rise is expected. The river was not quite bank full at Hopkins at 2:30 o'clock this afternoon and was at a standstill. At Creston this afternoon it is said the river was falling.

A report from Lenox, Ia., says forty head of steers were drowned in the Platte river. A report from Corning said the Nodoway river was out of its banks and rising.

The Platte river is also bank full, but at near the crest through Nodaway county. Reports at noon today from Conception and Ravenwood are that the river is bank full and rising slowly. At Parnell it is said the river is rising slowly, but little danger is expected unless further rains fall.

At Quitman reports at noon stated the Nodaway river was bank full and rising slowly, but no danger had been done.

TO HOLD FIRST SERVICE

Baptist Men's Club Gospel Team to Conduct Meeting at New Hope Church Sunday.

The first service to be held by the gospel team of the Men's club of the First Baptist church will be held Sunday at the New Hope church, east of Hopkins. At the morning service at 11 o'clock a memorial sermon will be given by the Rev. Mr. Watts of Clearmont. A basket dinner will be served at noon and at 2:30 o'clock the program will be in charge of the gospel team. The Ray Davis team is the one selected to take charge of the service, and this team is composed of Ray Davis, captain; Clyde Avitt, James Markwell, G. B. Holmes, Sr., and William Everhart. Several singers of the church will accompany the workers, and also there will be several auto loads of persons from the Maryville church attending.

300 ENROLLED AT NORMAL.

Summer Quarter Will Be Well Attended, Indicated—Are Finding Homes.

The enrollment of young men and women from northwest Missouri for the summer quarter at the Normal, which began this morning, is continually increasing. The total numpumber that had paid dues to Treasurer George Kemp at 2 o'clock this afternoon was 301, while about 200 had received their class admittance cards at the Normal at 10 o'clock this morning.

The rainy weather is perhaps keeping some students back, but most of those already here are finding temporary homes during the quarter and boarding and lodging houses are rapidly filling up. Trains today are still bringing in many students.

LOST FISHER RETURNS.

"Trump" Palmer, Negro, Went Fishing Yesterday, Stayed Out All Night.

"Trump" Palmer, a negro, went fishing in the 102 river yesterday, remained all night and was found returning home this morning, sopping wet, by a searching party sent from town to hunt for him. When asked where he had been, he merely answered "fishin'," and let it go at that. It is said he stayed on the banks of the stream all night.

Guest at Willard Home.

Mrs. Maurice Stokes and small daughter, Roena, of Craig, arrived in the city Tuesday to visit Mrs. Stokes' mother, Mrs. S. J. Willard, of South Fillmore street.

HOLD GUINEA DAY JUNE 16, DECIDED

MERCHANTS TO OFFER SPECIAL SALES THAT DAY, TOO.

CIVIC CLUB ARRANGES A NOVEL TREAT THEN

Commercial Organization Backs Move for Extra Inducements to Patrons of Maryville Business Houses.

Guineas galore will be seen on the streets of Maryville Wednesday, June 16, in connection with the special merchandise sale of Maryville business houses, if plans made this week at a meeting of the commercial interest committee and the entertainment committee of the Commercial club "pan out." There will be live ones, small ones, short ones and tall ones, so sayeth the committeemen. The inducements for every farmer and farmer's wife and son and daughter to come to town that day will be strong and many.

The two club committees are now busily engaged in mapping out the details of the event. It is expected that the first annual "Guinea day" will be one well worth repeating yearly. Assurance of the presence of a large number of guineas, both pretty and ugly ones, is given.

What Kind of Guineas?

While the show of guineas will no doubt be worth coming miles to see, the special sale of the merchants is just as strong or a stronger inducement. All lines of goods will be marked down to rock bottom prices and modern, up-to-the-minute wares will be placed on the bargain counters everywhere, according to present plans.

Naturally the question suggests itself, what kind of guineas does this have reference to? There is the secret. That is what we all are guessing at. Webster's dictionary gives several meanings to the word, among them being the statement that it is a form of fowl, another that it is an old English coin worth about $5. Again, young beautiful damsels often are spoken of as "guineas." Now, which does the club have reference to? Search us.

REFUSE LINEBAUGH NEW TRIAL.

Rehearing in Damage Suit by Charles Abbott Denied—Appeal is planned.

The motion for a new trial by William W. Linebaugh, defendant in a $20,000 damage suit by Charles Abbott of Elmo, who got a $4,000 verdict by a jury in circuit court recently at Gallatin, was denied yesterday by Judge Davis at Gallatin. A motion in arrest of judgment also was overruled.

After losing the two motions counsel for the defendant announced that an appeal to the Kansas City court of appeals would be taken. George Robb Ellison represented the defendant and M. E. Ford the plaintiff. Linebaugh was charged with having seduced a daughter of Mr. Abbott.

Get License to Marry.

A marriage license was issued in the office of the recorder of deeds to Martin S. McQuinn of Clyde and Anna Dougan of Maryville. They are to be married in St. Patrick's church here, Wednesday, June 2.

There are some indications that the weather man's apparatus has sprung a leak.

The savage thoroughness with which the Prussians are making war is well illustrated in the incident of the Saxon battalion which attempted to surrender in a body a few days ago. When their intentions were discovered the artillery of the Prussian army was immediately turned on them and they were mowed down by their own fellows by the hundreds. This is a revival of the discipline of the ancients and was intended to show that they had no use for men who were willing to be taken alive.

May 30 comes on Sunday this year, but it won't hurt to get out your flags on Saturday and keep them out a few days. In times like these it is good to look at the national colors occasionally. It is well to remind ourselves and the world that this country gave a half million men that "the government of the people, for the people and by the people should not perish from the earth." Americans have and can fight for a principle as readily and bravely as any people on earth. Americans are not inured to war and do not fight either for entertainment or for the aggrandizement of any monarch or ruling clique, but for concentrated gallantry and persistent courage in the face of disaster there were battles in the civil war that have never been surpassed.

Billy Sunday has closed his campaign at Patterson, N. J., and announces that he will now take a summer vacation. On the basis of big figures he has certainly earned a rest. His last three campaigns have been at Pittsburgh, Philadelphia and Patterson. During his seven weeks at Patterson, the smallest of the three cities, the total attendance was more than 750,000 and the number of those "hitting the trail" was 17,000. His meetings have been exceedingly profitable for him, but ministers say that the general good he has accomplished for the three cities could not be measured in millions. His personal income is perhaps larger than any preacher the country has known. His meetings in Pittsburgh netted him $40,000, in Philadelphia he was given $53,000, and in Patterson $26,000, making a total of $119,000 for his last six or eight months work. It is estimated that his campaigns have altogether brought him $615,000.

NO REASON FOR IT.

When Maryville Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Maryville citizen says.

J. A. Murphy, 805 East Fourth street, Maryville, says: "I suffered considerably from bladder trouble and lumbago. I got up in the morning feeling so stiff and lame and with such a dull ache across my loins that I could hardly work. Whenever I caught cold my kidneys troubled me. The kidney secretions were dark and filled with sediment. Finally I used Doan's Kidney Pills and am now free from the trouble. I recommend Doan's Kidney Pills just as highly today as I did when I was cured. Occasionally I take Doan's Kidney Pills and they quickly relieve me."

New York City's board of education has set aside May 28 as "tooth brush day." There are between 600,000 and 700,000 children in New York's public schools. If the spirit and letter of the board's orders are observed on the day specified, this fine army of young Americans will, after enjoying the usual instruction in incipient eugenics, personal hygiene and anti-hyphenated patriotism, have the privilege of undergoing a tooth brush drill. It will be an inspiring spectacle.

DIPLOMATS EXCHANGE TRAINS AT ZURICH

Von Buelow Thanks Swiss Commander For Military Protection.

Zurich, May 27.—The Duke of Avarna, Italian ambassador at Vienna; Baron von Macchio and Prince von Buelow, Austrian and German ambassadors to Italy, together with the staff of the Bavarian legation at Rome, all arrived here. The Italian diplomat and his suite boarded the train which brought Baron von Macchio from Rome, and continued his journey, while Baron von Macchio went on to Vienna in the special which brought the Duke of Avarna to this city.

The railroad station was guarded by troops from the Zurich garrison. Prince von Buelow was greeted by the German minister at Berne and the consul in this city. Before leaving he sent a telegram to General Wille, commander of the Swiss army, thanking him for the arrangements made by the military authorities for his protection on the journey through Switzerland. A similar telegram was sent to President Motta by Baron von Macchio.

THINKS DEAL ALL RIGHT

Burke's Profits on Sale of Tobacco In Canal Zone $20,000.

New York, May 27.—John Burke, former manager of the Panama railroad, who is under indictment, charged with conspiracy to defraud the government in connection with tobacco contracts for the canal zone, testified that the tobacco in question was paid for out of the treasury of the railroad and that he did not believe he was defrauding the railroad "so long as the price was right."

Burke gave this testimony on cross-examination at the trial of Jacob Salas, a tobacco merchant, indicted on a similar charge.

Burke testified that he had entered into an agreement with Salas and Ricardo Bermudez, former governor of Colon, who is also under indictment, by which he was to purchase tobacco from them, and he identified eleven drafts calling for more than $20,000, which, he said, he received on account of his interests in the tobacco sales.

Fashionable clubs and social and fraternal orders in Tennessee must tear out their bars and "sideboards" and hereafter sell nothing stronger than grape juice highballs. The legislature, after a bitter fight, passed the "locker" bill prohibiting an organization from keeping liquor for its members, even though they buy it and only "store" it in the clubs.

There is joy in the treasury department. Preliminary estimates from all internal revenue collection districts indicate that the individual and corporation income tax this year not only will come up to the original estimates of $80,000,000, but probably will exceed that sum.

Census figures show that debt and taxation in Kansas are still increasing. The net debt on March 1, 1913, represents an increase of $17,482,237, or 19.7 per cent over the amount reported in 1902. The per capita debt of the Sunflower state in 1913 was $31.22, an increase of $7.23 over that of 1902.

RAISULI STARTS REVOLT

Moorish Brigand Causing Trouble For French In Morocco.

Paris, May 28.—Official information from Morocco indicates that Raisuli, the Moorish brigand and pretender to Morocco's throne, is conducting an agitation among the natives in the district of Charb, in the northern part of the country. It is stated that Raisuli's actions have been inspired by German agents.

General Lyautey, resident French governor of Morocco, dispatched a detachment of troops against the malcontents. The troops were attacked near Boudouma, eight miles south of Quezzan, by a strong force of mountaineers, coming from the Spanish zone. The mountaineers were defeated with heavy losses.

Meat Cargo Prize Case Up June 7.

Washington, May 27.—Ambassador Page cabled Secretary Bryan that Sir Edward Grey had given assurances that prize court proceedings in four of the American meat cargoes destined to European neutrals, but held in British ports, would proceed without delay on June 7. Sir Edward requested that counsel for the packers be present. Alfred Urion, their general counsel, is preparing to sail Saturday.

IS MENACE TO ALFALFA.

Clover-Root Pest or Curculio Grub A Dangerous Insect—Harrowing Helps.

The clover-root curculio in its most dangerous form is a tiny grub which seriously injures the roots both of clover and alfalfa, sometimes working upward into the stem says government experts. Only a short time ago it was considered of little economic importance, but it has now been definitely established that serious injuries formerly credited to other pests or the cause remained unknown are due to this tiny white grub. The insect seems to be continually increasing along roadsides and in clover fields.

There is only one practical suggestion that at present can be made for limiting the devastations of this pest. That is by disking or harrowing the fields as soon as the first hay crop is removed. The process, it would seem, will destroy vast numbers of the pupae of this insect, which do not descend much more than an inch below the surface.

The disking and harrowing should be done immediately after removing the first hay crop, and prompt action even at this time will not prevent injury to that season's crop but should considerably reduce the pest the following year.

The depredations of the grubs are confined particularly to the roots of clover and alfalfa. Their work is, therefore, not evident to the casual observe, and the little white insects themselves can hardly be noticed.

The adult insect, also, which is a tiny beetle, injures both clover and alfalfa, but these injuries are less serious, although more noticeable. They may be particularly noticed in September and October, when mutilated clover leaves along any roadside will testify to their abundance.

It was only in May, 1914, that the first absolute proof was secured of the insect's serious devastations in alfalfa fields, and the department is still looking for the most practicable methods to prevent further losses. It seems that a short rotation of the alfalfa crop might have a tendency to limit the abundance of the insect in the fields, but this would not effect the continuous breeding of the pest in waste lands or where clover or alfalfa occur uninterruptedly.

The limited amount of food consumed by the adults would place the application of poisons out of practical consideration, and the burning over of fields in winter would hardly destroy enough of the hibernating adults to limit their devastations the following season.

How Gold Dust actually *works* for you

The active principle of Gold Dust is a valuable antiseptic cleansing agent.

It actually *works*. It gets into the corners and crevices where fingers and washcloths can't reach. It permeates and dissolves dirt, grease and grime *everywhere* and it cleans and brightens *everything*.

Gold Dust does all this—does this actual *work*—because it is made for that purpose.

Millions of women all over the country use Gold Dust three times a day in washing dishes. They use it also for scrubbing floors, washing windows, etc.

But they do not realize all the uses of Gold Dust. Gold Dust is the only washing and cleaning powder needed in any home.

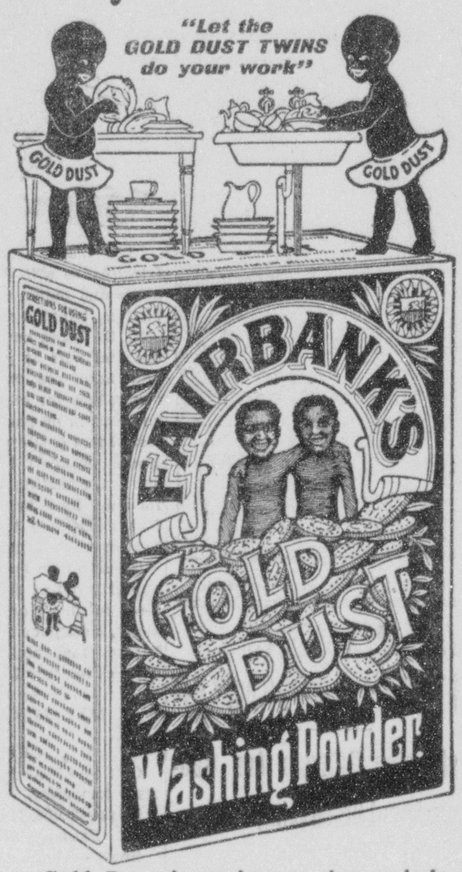
❖ ❖ ❖ ❖

Gold Dust cleans metal work, nickel, enameled ware, etc., without scratching or marring the surface—leaving it sanitarily clean, bright and new-looking.

The use of Gold Dust is an economy. There can be no waste when you use the exact small quantity required for each specific purpose. It is at once taken up by hot or cold water, forming the perfect cleansing solution.

No soap or other cleansing help is needed. Gold Dust does it all, and Gold Dust does its work far better than anything else can.

Use Gold Dust not only for washing dishes, but for washing bathtubs and bathroom fixtures, cleaning oil mops, cleaning and freshening linoleum and oilcloth, cleaning and brightening pots, pans and cooking utensils, giving luster to glassware—for every cleaning and brightening purpose.



Gold Dust is as inexpensive as it is indispensable.

A 12-CYLINDER CAR.

Packard to Have a "Twin Six"—Is Newest Innovation in Motor Construction.

Motor engineers said last February at the Kansas City Motor show that the 12-cylinder car, when it appeared on the market, would be the height of motor efficiency. The "eight" had just made its appearance out of the factory of a reliable motor manufacturer.

"We'll have a 'twelve' next, and when we do——"

If there is anyone who can keep a secret it's a motor manufacturer. He can shut up his factory, station guards all around the outside and work so systematically on a new creation that the announcement of an innovation sometimes comes as a shock. Some of them even station motor camps down on the deserts of Arizona, where some wonderful things are tried out. There are now at least a dozen manufacturers tinkering with new engines down in Arizona with which they expect to surprise the motor industry. The Packard Motor company tried out a 12-cylinder car down there and no one knew about it until the advertising announcement was made this week.

The first "twelve" probably will be in Kansas City by June 15. The Kansas City representative of the Packard company doesn't know whether the factory intends to continue the manufacture of the "six," or whether the output will be limited to 12-cylinder cars. Neither is it known what the production will be, but it is said the output will be limited.

Nothing much is known as to what the new model will look like. Of course a "twin six" will have a remarkable range of ability combined with almost complete absence of vibration at all speeds. This result is due not only to the continuous smooth application of power from the twelve cylinders, but also to the fact that the small bore of the cylinders and the use of aluminum alloy in making the pistons will reduce the weight of the twelve pistons to half the weight of the present Packard model.

In external appearance the new Packard will be much the same, except that the hood will be shorter, and the radiator tapered to conform with it. The reduced length of hood permits a shorter wheel base.

The "twin six" is exactly what the name implies, two 6-cylinder blocks arranged in a V form with an angle of 60 degrees between them. This small angle allows such accessories as starting motor, generator and water pump to be placed inside of the frame so that the space between the cylinders is left clear and the valves are conveniently accessible without the removal of a single accessory.

The motor will be of clean cut design with nickeled trimmings and enameled cylinders. The bore is three inches and the stroke five inches.

One of the new models will first be shown at the Indianapolis races next Saturday. It is not known what the price of the car will be. The Kansas City Packard company, according to the manager, has sold seventeen "twelves" since the announcement was made.—Kansas City Star.

No Paint— No Repairs— Just Wear— Use PEARL for Screens—

What's the use of screening with a wire cloth you know will have to be repaired, repainted or renewed in a season or two at most?

Practice *real* economy. Screen with genuine Gilbert & Bennett PEARL Wire Cloth. Rust, *not* wear, ruins screens. PEARL Wire Cloth is as near rust-proof as metal can be made and consequently as near wear-proof as a screen can be.

GILBERT & BENNETT **Pearl** WIRE CLOTH

For Screening Doors, Windows and Porches

Made in Two Weights — *Regular and Extra Heavy*

Smooth surfaced and with metallic lustre, PEARL is beautiful as a screen can be. Easy on the eyes and less visible the longer it's used.

Don't be deceived. There can not be a "just the same as PEARL." The manufacture and application of the non-crack, non-chip coating from which it derives its wonderful rust-resisting qualities is a secret process, the exclusive property of the company.

We sell genuine PEARL Wire Cloth with two Copper Wires in the Selvage and the Round Tag bearing the Gilbert & Bennett name on each roll.

The Co-operative Tire

Goodyear has always built co-operative tires. Every saving has gone to the user. The more men bought the better we built them, and the lower we sold them.

That is why Goodyear has held top place, outselling any other tire.

3 Reductions

Note that in two years we made three big price reductions. The last—on February 1st—brought the total to 45 per cent.

Yet in costly ways these tires have been bettered. In not one iota were they ever skimped.

Our Fortified Tire is still "On-Air" cured to save blow-outs. Yet that one extra costs us $450,000 yearly.

It still has our No-Rim-Cut feature. It has in each base 126 braided piano wires to make the tire secure. It embodies hundreds of rubber rivets, formed to combat loose treads.

Our All-Weather tread is still double-thick. It still has the sharp, tough, resistless grips.

Those extras—all exclusive to Goodyear—are all retained, despite our price reductions. And we still spend $100,000 yearly to discover new ways to better them.

Your Ally

In all these ways, Goodyear is your ally. You do injustice to yourself when you fail to secure this advantage. Never in tire history was such value given as you get in Goodyear tires today.

No smaller makers can ever give so much.

Any dealer will supply you. [2327]

TO USE ORCHARD SPRAY.

Government Experts Advise Preparation of Lime—Sulphur Concentrate.

Investigations for the purpose of encouraging orchardists in the preparation of lime-sulphur concentrates for their own use or in the neighborhood have led to the wide use of this spray material, according to the department of agriculture. It is of relatively little importance except for economy in storage space how dense or heavy a concentrated solution is made because it can be readily diluted in conformity with the purpose for which it is to be used.

A good grade of fresh limestone, containing not less than 90 per cent calcium oxid, is necessary for the best results. Hydrated lime is sometimes used, but it is necessary to obtain a good grade and at least 20 per cent more of this form of lime, as it contains a high percentage of moisture.

A highly concentrated solution may be made by using the lime and sulphur at the ratio of 1 to 2, but with reduced quantities of water. The formula used in some of the commercial lime-sulphur manufacturing plants is 80 pounds of fresh stone lime, 160 pounds of commercial ground sulphur and water to make 50 gallons of the finished product.

Commercial ground sulphur may be purchased in car lots for about $1.50 per 100 pounds and lime at about 60 cents per barrel, making the cost of the highly concentrated solution, estimating labor and fuel at 70 cents, about $3.30 per barrel of 50 gallons. This does not include wear on outfit and cost of containers for storing.

TRIUMPH IS SUNK IN DARDANELLES

British Battleship Torpedoed by Submarine In Turkish Waters.

BUILT IN 1902 FOR CHILE.

As Flagship of the Asiatic Squadron It Took Part In the Bombardment of Tsingtau—Majority of Officers and Crew Are Saved.

London, May 27.—The British battleship Triumph was torpedoed by a submarine in the Dardanelles and sank shortly afterward.

The British admiralty reports that the majority of the officers and crew were saved.

The battleship Triumph was built at Barrow, in 1902, for the Chilean government, but was purchased by Great Britain in 1903.

Since the present war broke out the Triumph has been in operation in both far eastern and European waters. As flagship of the British Asiatic squadron, it participated in the bombardment of the German base at Tsingtau, China, last October, and was reported to have been damaged by the shell fire of the German forts. Lately it had been active in the bombardment of Turkish trenches on the Gallipoli peninsula.

The Triumph, which was commanded by Captain Maurice E. Fitzmaurice, was a vessel of 11,985 tons. Its crew of officers and men numbered about 700 men. The vessel carried four 10-inch, fourteen 7.5-inch guns and fourteen 14-pounders and four 6-pounders. The Triumph was 436 feet long and had a speed of about twenty knots.

HEAD OF ERIE LINES INDICTED

Underwood Charged With Violating Interstate Commerce Act.

Cleveland, May 27.—Frederick D. Underwood, president of the Erie Railway, the Erie railroad and the Delaware and Hudson railroads, was indicted by a special federal grand jury. Violation of the interstate commerce laws is charged.

The indictment charges that in July, 1912, W. B. Miller, former president of the Diamond Rubber company of Akron, and seven friends were allowed the use of a private car for a trip from Akron to Beverly, Mass., upon payment of eight fares. Under the interstate commerce law, a private car can be allotted only upon the payment of twenty-five full fares.

Lumber Rate Case Won by Sioux City.

Washington, May 27.—Sioux City won a victory before the interstate commerce commission when the proposed increased rates on yellow pine lumber from the southwest to Sioux City were found not justified. The carriers were called on to justify a proposed increase rate of 30 cents per 100 pounds to Sioux City, and they were unable to do it. The present rates is 28 cents.

Baptists Indorse Wilson's Stand.

Los Angeles, May 27.—The Northern Baptist convention in its closing session adopted resolutions indorsing the president's stand for neutral rights in the European war and urging national prohibition, the enactment of federal statutes to govern divorce and the strict enforcement of Sunday closing laws everywhere.

Becker to Be Executed July 12.

Albany, N. Y., May 27.—The court of appeals fixed the week beginning July 12 for the execution of former Police Lieutenant Charles Becker, convicted of the murder of Herman Rosenthal.

Oklahoma Town Hit by Tornado.

Hugo, Okla., May 27.—A tornado struck Talihina, Okla., sixty miles north of here, killing one person and fatally injuring several others. Many buildings were blown away.

AWAIT DETAILS OF ATTACK ON NEBRASKAN

Washington Officials Are Cautious About Discussing Matter.

Washington, May 27.—The course of the United States government in the case of the American steamer Nebraskan, damaged off the coast of Ireland, was undetermined because officials were without definite information whether the ship was torpedoed or struck by a mine.

Messages from Ambassador Page and Consul General Skinner at London transmitted the report of the British admiralty that the vessel had been torpedoed, but officials noted with much interest the captain's report to his owners, indicating a doubt whether the Nebraskan was hit by a torpedo or a mine.

President Wilson himself read all the dispatches. In view of the positive position which the United States has taken on the subject of submarine activity in the war zone and the delicacy of the situation with Germany arising out of the Lusitania disaster, the story of the Nebraskan's experience is awaited with unusual interest. Should it develop clearly that it was torpedoed without warning, an aggravating circumstances will have been added to an already tense situation, notwithstanding the fact that no lives were lost.

SAYS JEWS NOT STRANGLERS

San Diego Minister Writes Letter to Governor of Georgia.

San Diego, Cal., May 27.—"Neither man nor beast has ever been known to have been strangled by a Jew," says a letter written to the governor of Georgia by Rev. Alfred K. M. Lover, rector of St. James' Episcopal church here. The letter is intended to show that Leo M. Frank probably is innocent of the murder of Mary Phagan, a factory girl, for which he is under death sentence.

"The Jewish law and custom that compels under pain of sin the drawing of life blood of all animals to be slaughtered has also unconsciously applied from the time of Moses to the present to the criminal act of Jewish murderers as a kind of second nature," the letter asserts.

The writer is said to be a recognized authority on laws and customs of the Jews.

Father Kelley Is Dead.

St. Marys, Kan., May 27.—The Rev. Father John Kelley, treasurer of Creighton university, Omaha, who has been pastor of Catholic churches in Chicago, St. Louis, Baltimore and Kansas, died here. He was sixty-seven years old. Father Kelley was widely known in Jesuit circles of the country. He came to St. Mary's college here last month, suffering from a disease of the kidneys.

Attorney Koenigstein Indicted.

Madison, Neb., May 27.—The grand jury sitting here brought two indictments against Arthur J. Koenigstein, county attorney of Madison county for the term ending Jan. 1, 1915, and city attorney for Norfolk for the municipal year ending May, 1915. The indictments contain twenty-eight counts, charging him with taking bribes from keepers of resorts in Norfolk.

FIVE ARE DROWNED IN SPENCER FLOOD

Sioux City, Ia., May 27.—Joseph Provacek, his wife, two sons and daughter were drowned during the storm at their home, two miles south of Spencer, Neb., according to word which Mrs. E. G. Ludlow of Sioux City, a daughter of Mr. and Mrs. Provacek, received. The bodies have been found, the message stated.
